MID AND FINAL SCRIPT CHECKING TIME:
12:00 PM- 5:00 PM, 19 JAN, 2026 (MONDAY)
IN THE MEANTIME MAKE SURE EVERYONE HAS SUBMITTED ALL ASSIGNMENTS:

- MID TERM ASSIGNMENT** as PDF to the **GOOGLE FORM LINK** provided there.
- Self-Assessments** and **Hometask** to me in Email as PDF/IMAGE.
(If you've attended in person class and submitted scripts then you don't need to resubmit, in case you forgot or have confusion, submit all the assessments in email just to be safe)

BEST WISHES.

Jan 9

Dear Sir,
I hope you are doing well. I wanted to kindly remind you about the MAT110 midterm examination result, as it has not been shared yet.
Since our final examination is scheduled for the day after tomorrow, receiving the midterm score would be very helpful for me to understand my standing and prepare more effectively for the final.
I would be very grateful if you could please let us know the result at your convenience.
Thank you for your time and support.
Sincerely,
Syed Ariq Rahman
syed.ariq.rahman@g.bracu.ac.bd

Thank you for reminding, as I mentioned in online makeup session, I'm trying to announce script checking for both MID and FINAL asap, with the aim to give you all opportunity for discuss regarding both the marking scheme and your obtained marks along with common mistakes that I show in offline and online sessions.
Prepare for FINAL now. Best wishes.

Announcement regarding Assignment Submission:
Based on many of your requests and considering this semsters hectic situation, I've decided:

- No marks will be deducted from MID TERM ASSIGNMENT for submitting in the LATE SUBMISSION PERIOD: 3 days from announced Deadline.
- So, you got 3 extra days.

But, remember there are other Self-Assessment tasks and Hometasks announced in the group communication Medium (Google Classroom). So, in case you've not submitted those, Scroll down in GOOGLE CLASSROOM and DO SUBMIT IN TIME.
BEST WISHES.

DEAR ALL,

- WATCH, EXPLORE THE PARTIAL DERIVATIVE RESOURCES.
- SOLVE THE PROBLEMS FROM PRATICE SHEET. USE THE ONLINE SOLVER GIVEN HERE TO SPEED UP YOUR PREPARATION AND VERIFY YOUR WORKS.
- FUN FACT: WHO’LL EAT WHAT?
(SEE THE ATTACHED PUZZLE IN THE IMAGE).Believe it or not, Solving this puzzle helps drawing tree diagrams for Chain Rule for Partial Derivatives.
- See how to draw CHAIN RULE for MULTIVARIABLE FUNCTIONS.
SEE YOU ALL IN NEXT CLASS.
BEST WISHES.

Those who missed QUIZ COMPETITION on DEC 18, do the following:
STEP-1: Email me the reason of your absence and solution of the given 4 questions and tasks on QUIZ COMPETITION
(see the announcement here:
<https://classroom.google.com/c/ODE1Nzk4MTM0NjA5/p/ODM2OTQxNjc0NTU0/details>

STEP-2: After completing **STEP-1** properly, MEET ME in ANY OF MY OFFICIAL CONSULTATION HOUR at my consultation place and give a MAKEUP QUIZ on first 3 similar questions (Task-4 will not be needed to solve again in MAKE QUIZ)

Unless you're completing both STEP-1 and STEP-2 your QUIZ COMPETITION MARKS will not be counted.
Take care. Best wishes.

Announcement:
1) No offline/online class on tomorrow 20 february,2025.
2) Online Make up sessions will be announced afterwards.
3) Prepare using the attached resource.

MSG from Registrar:

Dear All,

The following academic arrangements have been taken for the welfare of our university community considering the recent developments in the country.

Il classes on Friday, December 19, 2025 will be held online. All Schools, Departments and Institutes are asked to have further coordination in this regard.

No classes will be held tomorrow, December 20, 2025 in solidarity with the national mourning day as announced by the government. All Schools, Departments and Institutes are asked to prepare make up arrangements as needed.

This is applicable to all students of undergraduate and postgraduate programs. RS management will advise RS students regarding specific arrangements.

The University is closely monitoring the situation and further announcements will be made as needed.

Please do take care.

HOMETASK & QUIZ:
NEXT THURSDAY, DEC 18, 2025 YOU'LL HAVE A QUIZ.
AND THIS QUIZ WILL NOT BE JUST A PEN-PAPER TEST.
RATHER, IT'LL BE MORE LIKE AN ACTUAL ENJOYABLE "QUIZ COMPETITION".
SINCE, THERE IS NO SCOPE FOR MAKEUP QUIZ, SO DON'T MISS IT UNLESS YOU'VE VALID DOCUMENTS IN CASE OF EMERGENCY.

- ***WHAT ARE YOU SUPPOSED TO DO?***
⇒ EXPLORE THE FOLLOWING RESOURCES LIKE SHERLOCK HOLMES!!
- ***HOW WILL YOU DO THAT?***
⇒ FOR EXAMPLE, DID YOU NOTICE THAT: IN THE MISSION IMPOSSIBLE CLIP THERE'S A 8 DIGIT PASSCODE SHOWN? JUST KIDDING, IT'II NOT BE MCQ BASED ON MEMORIZATION. BUT STILL, IF YOU'VE NOTICED THE PASSCODE, THEN COMMENT HERE TO PROVE THAT YOU'VE ACTUALLY PAID ATTENTION.
- ***WHY DO YOU NEED TO DO ALL THESE?***
⇒ WITHOUT RELATING TO PROPER VISUALIZATION AND ATTENTION TO DETAILS, IT MIGHT FEEL VERY DIFFICULT TO GRASP EVEN BEAUTIFUL AND EASY IDEAS.

TAKE CARE. ALL THE BEST. SEE YOU ALL ON THURSDAY IN QUIZ COMPETITION.

As usual Todays Self-Assessment will be the last announced hometask.

Take a paper, write full name, ID, section and submit answering the following.

And those who'll miss the class have to email me with this assignment explaining cause of absense.

Total time 20 minutes (if you need more time, keep writting, class discussion will start after that).

=====

"HOMETASK: See attachment for instruction.

WATCH AND LEARN, PLAY AND REFLECT.

SUBMIT YOUR EXPERIENCE REGARDING "HOW WE SEE?" and "HOW WE USE MULTIVARIABLE OR MULTIVARIATE FUNCTIONS?"

Dec 11, 2025

Dear all,

I'll start todays class 15minutes after the scheduled time.

In this 15 minutes do the following:

Take a paper, write name, ID and solve the problems in detail here:

1) Find the derivative of x^x with respect to x

2) What is the value of $8 \div 2(1+1)$, explain your reasoning and show steps.

Since, this is a self-assessment test so you all must complete this and submit to me in paper or if you miss the class then send in email.

We'll have these self-assessment tests frequently to recheck what we've learned. Hope that helps.

Best wishes.

MAT110_FALL_2025_SKY 03

We are going to cover the following syllabus for the final exam of Fall 2025.

Syllabus for Final Exam:

- Maxima and Minima of functions of two variables
- Lagrange Multipliers to find maximum and minimum values
- Taylor expansion (Linear and Quadratic) of functions of two variables
- Conic sections (Parabola, ellipse and hyperbola)
- Conversion of points (Rectangular, Cylindrical and Spherical Coordinates)

Suggested problems from the Calculus book [Anton's 10th Ed.]

- 13.3 Partial Derivatives 37-45 +Practice Sheet attached:

<https://drive.google.com/file/d/1nU2rOmv6aPQunoaAyBrKr0EkgtkGOoi/view>

- 13.5 Chain rule for partial derivatives 1-6,17-22
- 13.8 Maxima and Minima of Functions of two variables 9-19
- Taylor Expansion of two variable Functions

Practice Sheet attached:

https://drive.google.com/file/d/1oznPiV-dej_vYZygVeADqechjpfcMhh/view

- 13.9 Lagrange Multipliers 5-12
- 11.8 Cylindrical and Spherical Coordinates 1-12
- 10.4 Conic sections 3 - 14 [Question pattern: Find all the characteristics of (parabola, ellipse,hyperbola)]

Regards,
Sanjeeda Nazneen
Senior Lecturer
Department of Mathematics and Natural Sciences

Dear all,
I'll start todays class 15minutes after the scheduled time.
In this 15 minutes you've solve a very easy problem.
Rewrite the equation:
 $\cos y-x * e^y=0$
into both $y=f(x)$ and $x=g(y)$ form.

*Take a paper, write name, ID and solve the problem there.
Since, this is a self-assessment test so you all must complete this and submit to me in paper or if you miss the class then send in email.*
**We'll have these self-assessment tests frequently to recheck what we've learned. Hope that helps.
Best wishes.**

Dear students,
Hope you are all fine.
#Stay safe. Take care of your physical and mental health.
Reach to me incase of any emergency.
#Check exam date, time, exam room, topics carefully
#In case, you have any kind of medical or other sort of emergency, contact me immediately.
If you miss the mid term exam, then you can sit for makeup mid exam following bracu rules afterwards. But if you attend the exam without informing me the emergency or urgency then no MAKE UP MID will be possible as per BRACU rule.
So, take care, sleep well and stay connected.
Best wishes.

Hope you're all safe and sound.
5.7 M_L(Richter Scale) Earthquake is huge for dhaka. Some prediction says, there might be more in coming days.
Official site:
<https://mobile.bmd.gov.bd/bmdmobile/earthquake/>

Here, It shows 5.5 mww though. Here, 'mww' is a subtype of 'moment magnitude scale' (not the richter scale) which refers to "Mww – Derived from a centroid moment tensor inversion of the W-phase." as per wikipedia.

Stay safe. Take care.

Dear All,
We'll start 15 minutes after the scheduled time.
This 15 minutes you have a task to do on your own. I'll collect all of your answers in papers and then I'll start the class.
Those who can't join in person lecture, write here in comments:

Take pen/pencil and paper, write your name and ID.
Questions:
Write in brief about how confident you feel about differential calculus by answering these 5 questions:
1) Do you know what continuous means?
2) Do you know what differentiability means?
3) Do you know what critical point means?
4) Do you know what'll be the slope of a straight line connecting two point A(x1,y1) and B(x2, y2)?
5) Do you know what y'(a), y''(a), y'''(a) means?

If all of your answers are YES then you are ready to solve any problem in todays all topics. Just we need to know WHAT? HOW? WHY? of these topics.
BEST WISHES.

Quick Response to some queries regarding limit.

- Attaching a short and quick response here for 3 questions regarding LIMIT, CONTIUIITY. Its auto generated by CHATGPT as rapid response.
*****If you've attended lectures or watched recording, studied given resources here in classroom, then you probably won't need this. Yet, take a look to find if CHATGPT has made any slight mistakes.***
<https://chatgpt.com/canvas/shared/691cc103258c8191b0cd3e4e246cd581>
- Also,you can also see the same thing in detail from me in recorded class lectures and given pdf of lectures and study material given in google classroom or in google doc.
- Also, you can see the FAQ from past semesters here just to know answers of some common queries:

*****Ignore all dates and other announcements from here to avoid confusion.***

MSG from Registrar:
Dear Students,

It has been decided that:
All classes on Monday, November 17, 2025 will be conducted online. Academic Units are advised to make necessary arrangements accordingly.
BRACU Transport Service for students will not be available on Monday, November 17, 2025.
The Ayesha Abed Library services will be available only online on Monday, November 17, 2025.
RS management will advise RS students about specific arrangements on the Savar campus.

Please do take care.

Nov 15, 2025

Dear All,
Sorry for late announecement.
I'll take no class today. Watch and Practise last online sessions full video, submit the home tasks given in last classes in email.

Also,
I'll take makeup online session for MAT 110 on SUNDAY, 16 November, 2025 from 7:00 PM. Will give joining links here afterwards.

Topics will be Problem solving from Limit, Continity and differentiability.

So, email me beforehand all the math problems you're struggling with along with how you've tried to solve before tomorrow's makeup online session. I'll discuss from your given problems and will just solve the problems.
Best wishes.

ATTENTION: MSG from BRACU REGISTRAR. PREPARE ACCORDINGLY.
=====

Dear Students

The following measures have been taken for the welfare of our university community-
Classes will be conducted online on 12 November and 13 November 2025.The Mid-term examination week will be starting from 22 November instead of 15 November. The detailed examination schedule will be published on the BRAC University website accordingly. In the meantime, classes will be conducted in the period from 15 - 21 November as per the regular schedule.Considering the safety of the students, transport service will remain suspended until further notice.

RS management will advise RS students regarding specific arrangements.

The university is closely monitoring the situation and further announcements will be made as needed.

Please do take care.

Nov 11, 2025

Dear All,
I think you all are aware of the current national situaion and official mail regarding temporary suspension of BRACU buses.

- BRACU has requested the faculties to consider attendance,quiz, assignment during these turbulent times.
- However, no direct msg for conducting online classes have been given.
- So, I need to be in BRACU. But, don't worry. If needed I'll conduct online sessions and announce here in classroom. Will also provide video resources and lecture drawing board as usual for convenience.
- And apart from scheduled session, I'll take multiple extra online session

as necessary both for problem solving and exam strategy and recording and resources will be shared.

- *So, in case you feel/sense any risk coming to BRACU, no need to come to university only for my lectures. Its 2025, we can share, discuss and clear our query and confusions online.*

Your safety is my first concern. keep an eye on google classroom (here). I'll annouce all details in time. Take care.

Regards
Sakal Roy

Hello everyone,

The "Mathematical Debate" will officially start 15 minutes after the scheduled class time.

During the debate you can't use any online or offline resources.

So, in this 15 minutes you can take a paper and note down any important info from previous classes or the given resources

You can keep this paper and use it during the debate. (You can start noting down now also.)

See you on the starting time of "Mathematical debate" (15 minutes after the scheduled class starting time).

Best wishes.

 Add comment

Sakal Roy
Oct 28, 2025

- REMINDER ON QUIZ/ASSIGNMENT:
- We'll have a "MATHEMATICAL DEBATE" on THURSDAY 30 OCTOBER.
- As I mentioned in last 2 classes the debate will include elementary topics. Detailed instruction for the "MATHEMATICAL DEBATE" will also be published here for your preparation.
- You'll experience WHAT the word "QUIZ" usually means and HOW it can be FUN. Also, WHY instead of lots of pen-paper quiz a few such engagement are enough to assist you in learning. Assisting you in learning is the first and foremost purpose of any assessment, not just marks. Hope you'll enjoy it. :D

Since, there is no scope for any makeup quiz usually in this course, so don't miss the classes or quizzes unless its an emergency.

NOW I'm SHARING A IMAGE as an EXAMPLE. FIND OUT HOW MANY THINGS ARE WRONG HERE and practicing DEBATING with clear cut LOGIC.

You'll find more some examples in the Course info in List of Common Misconceptions and fallacy. OR you can explore other resources if you wish for this debate.

$$\frac{d}{d5} \left(\sqrt{5} \right) = \frac{1}{2\sqrt{5}}$$

Everything is relative

~ Albert Einstein

Dear All,
Course Coordinator or Course Outline for this semester FALL 2025 has not yet been announced officially by MNS, BRACU.

I showed you all the previous semester SUMMER 2024 earlier and requested to go through them. However, in this classroom I didn't want to share that again to avoid confusion, waited for BRACU to announce the new semester one as the first post.

However, due to deparmental delay of finalizing all these I'm sharing the previous one that I showed you all here for convenience. I'll share updated one as soon as MNS announced officially.

MAT110_SUMMER_2025_SKY

To share this document to anyone- USE the following link:

or https://docs.google.com/document/d/1f8rNUeZVpRqr5wGd8j3p3Vsv6Y4_idHHVWasZ2_DClo/

Most topics for MID TERM are supposed to be same as last semester.

- I'll first focus on discussing the topics: LIMIT, CONTINUITY, DIFFERENTIABILITY which involves limit.
- The rest of the topics for MID TERM doesn't usually involve solving limit as they're easier to grasp

crucial topics.

QUIZ/ASSIGNMENT:

- We'll have a "MATHEMATICAL DEBATE" on THURSDAY 30 OCTOBER.
- As I mentioned in last 2 classes the debate will include elementary topics. Detailed instruction for the "MATHEMATICAL DEBATE" will also be published here for your preparation.
- You'll experience WHAT the word "QUIZ" usually means and HOW it can be FUN. Also, WHY instead of lots of pen-paper quiz a few such engagement are enough to aassist you in learning. Assisting you in learning is the first and foremost purpose of any assessment, not just marks. Hope you'll enjoy it. :D
- Since, there is no scope for any makeup quiz usually in this course, so don't miss the classes or quizzes unless its an emergency.

In this short semester, I wish not to burden you all with heavy loads frequently but rather train to take heavy cognitive load once or twice when its needed.

Take care. Best Wishes.
